

# SEDIVER SMART'R SUITE

OUR DIGITAL REAL-TIME MONITORING SOLUTION

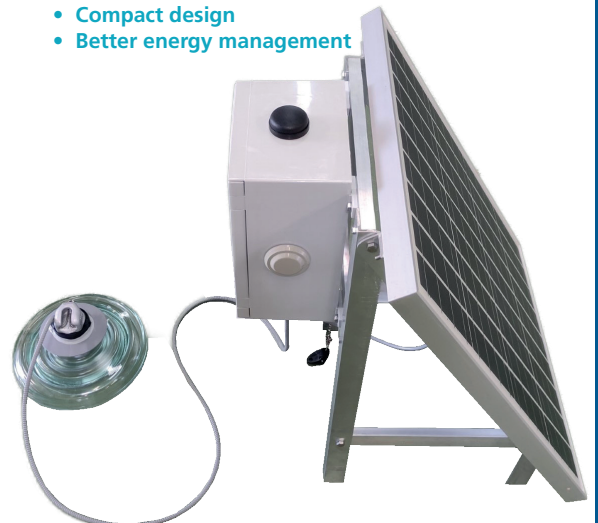

Sediver Smart'R solution offers unique monitoring of insulator conditions in real-time (Leakage Current - Temperature - Humidity)

Help your maintenance team make data-driven decisions:

- /// Prevent unexpected flashovers
- /// Avoid unscheduled line outages and related extra costs
- /// Optimize maintenance and reduce operations costs by giving advance notice for washing
- /// Enables mapping the pollution severity across a region

New generation V5 :

- Direct GSM data transfert
- Compact design
- Better energy management

## SEDIVER

Your trusted insulator partner in the world for over 70 years
